

BRIEF CONCEPT PEOPLE FOR PEOPLE

1. Introduction

Change as an advance – for free learning and true personal development.

People for People is more than an organization and a platform – it is a global movement that connects people, opens up new ways of knowledge, and establishes a transformative learning culture.

Instead of rigid concepts, we promote vibrant, individualized learning – supported by freedom, diversity and trust.

Education is no longer seen as a duty. More likely it is a living journey full of opportunities and full of possibilities – in which every experience, every connection and every growth arises from within.

At People for People, we create places with individual offerings and opportunities, that will allow anyone interested, to develop their very own and unique potential, in order to bring it into the world.

Because each of us is a valuable part of the greater whole.

2. Our vision

A worldwide community that accompanies people of all ages – no matter if you are a curious child, a wise educator, a young adult, that is seeking for their own path or a parent of tomorrow.

A community that inspires, and creates spaces in which learning is not bound by rules, but can unfold freely- at one's own pace, according to their personal needs. We open doors to new possibilities by letting go of old patterns, overcoming fears and courageously paving new paths. Because true growth begins where we uncover our inner potential and create new ways of learning and living.

3. Our mission

A global community of over one million people rethinking education, personal growth and the development of potential - regardless of origin or financial means.

We build lighthouses of free learning: lively places that go far beyond just receiving general knowledge.

Our places are about self-realization, personal development, non-violent social skills, non-violent communication and the profound experience of truly recognizing oneself and others.

Pause and feel!

Perhaps also a bit of healing from outdated structures and dogmas that can be discarded to make room for something new.

Because true learning begins where people have the freedom to be. Together, we are shaping a world in which every person is seen, heard and supported - a world in which learning becomes a source of strength, connection and true transformation.

4. What we do

This organization will be a network – a vibrant ecosystem of learning spaces, projects and communities that inspire, empower and evolve together.

Our mission in action:

Financial support of learning projects – We promote alternative education initiatives that are opening new paths of learning for children, youth and adults.

With targeted support, we bring innovative visions and concepts to life and make them accessible for everyone.

Spreading new ways of gaining knowledge – Our platform inspires, networks and offers training for individual growth.

Support for families and individuals – We help parents, educators and learners letting go of old patterns, overcoming fears and discovering authentic learning paths.

Creating a community – We create vibrant spaces where collaboration, mutual support and shared growth are possible.

Promoting places of encounter and development – We design inspiring learning environments that enable free learning, learning from each other, self-development and real-life education beyond rigid curricula.

People for People is more than just an educational initiative – it is a global movement that promotes holistic learning, personal growth and conscious transformation.

Now is the time to take action. Together, we are shaping the future of learning – for children, for adults, for all of us.

5. Funding and membership

This project thrives on people who not only believe in a new way of learning, but actively live it. Every contribution counts, every individual makes a difference.

With a membership of just €20,00 per month or a supporting membership of €30,00 per month you will become a part of this amazing movement. Your contribution flows directly into the support of learning spaces, projects and individual development paths – for children, parents and adults.

However, it takes more than memberships: every donation, every sponsorship and every successful crowdfunding brings us closer to our goal – a world in which education does not depend on money, but on the enthusiasm to discover new things.

This is how we finance the future:

Memberships – Monthly contributions enable worldwide learning locations, workshops and a variety of educational formats for all ages.

Donations and Crowdfunding – Every amount supports people on their learning journey – regardless of their income.

Partnerships and Sponsorships – Together with foundations, companies and visionaries, we realize lighthouse projects with a signaling effect.

Our goal:

Shaping a future together with a million people.

And the best part? It's within reach.

One million people working together to redefine education – free, courageous and accessible to all.

With €20,00 per month from one million people, a movement becomes reality that shapes a completely new learning experience of the future.

Just imagine: Inspiring places of learning are emerging all over the world where children, young people and adults can develop according to their needs – supported by a community, that understands education not as a privilege, but as a human right. Every contribution brings us closer to this vision.

The future is not written by large systems.

It is written by all of us – by you, by me, by everyone who believes in change.

Let's create this movement together. The time is now!

6. Become a member and help shape the future now!

Great changes start with a decision!

Transitions require courage, trust and a first step.

With every voice, every action and every contribution, we create a world in which learning is open to all.

It is in our hands whether we watch change happen – or shape it ourselves.

Become a member now – be a creator and let's break new ground together!

How to become a member:

> Write to us at contact@peopleforpeople.net – we will send you the application form.

Simply fill it out and send it back to us.

> Or join directly via our website www.peopleforpeople.net – it's simple and digital.

This is more than just any membership – it's a promise for a better future.

Be part of it!

With confidence and joy in what we create together!

From the bottom of our hearts,
Your team from People for People
